Three Good Races at Sheepshead Bay Won by Victory, Potomac and Judge Morrow. NEW YORK, June 27 .- The Sheepshead Bay races to-day were witnessed by the largest crowd on the grounds since the Saburban was run, about fifteen thousand people being present. The card was a good one. It consisted of the June and the Spendthrift stakes, the Knickerbocker handicap and three over-night ventures. The favorite, Victory, won the June stakes, while Potomac, at 4 to 5, captured the Spendthrift, and Judge Morrow, a strong second choice, had an easy thing for the Knickerbocker. It has been definitely decided that there will not be any racing at Monmouth Park this summer, and the Monmouth Association will be held at Morris and Jerome parks.

First Race—Purse, \$1,000; one mile. Sim-rock beat Dr. Helmuth out by a neck at the post. Stryke was third, a length away. Time, 1:43 15. Second Race-The June stakes; for two-

year-olds, with \$1,250 added; six furlongs. Victory won by a length from Zorling, who beat Nomad three-quarters of a length. Time, 1:13 4/5. Third Race-The Spendthrift stakes; for three-year-olds, with \$1,500 added; one mile

and a quarter. Potomac won by half a length from John Cavanaugh, who beat Unogrande a nose. Time, 2:11.

Fourth Race—The Knickerbocker handicap, with \$1,500 added; one mile and three furlongs. Judge Morrow won by a head

from Tea Tray, who beat Banquet a length and a half. Time, 2:24. Fifth Race-Handicapsweepstakes; 31,250 added; one mile and a furlong. Reclare won in a canter by a length and a half from Diablo, who beat Fitzjames out by five lengths. Time, 1:5785.

Sixth Race-Purse, \$1,000; one mile and a sixteenth; on the turf. Fon won easily by three lengths, while Strideaway beat Indian Rubber a length for second money.

Oakwood Stakes Won by Racine CHICAGO, June 27 .- A fast track, seven weli-filled races, including the Oakwood handicap, and a heat race, attracted 12,000 people to Washington Park to-day. The rich Oakwood handicap was the third race on the card. Verge D' Or and the California colt Racine were equal favorites. The Californians backed their champion heavily, and he rewarded their confidence by win-

ning under a gentle pull from D'Or in very First Race-Purse, \$600; for three-yearolds and upwards; entrance, \$15; one mile. Too Sweet won in a canter by two lengths from Phantom, who beat Ella Blackburn a length for the place. Time, 1:42. seond Race-Purse, \$600; for two-yearolds; entrance, \$15; five-eighths of a mile. ATHLETIC SPORTS.

Americans Defeat Englishmen at Throwing

the Hammer and in Sporting. MANCHESTER, June 27 .- The visiting team of the Manhattan Athletic Club, of New York, competed, this afternoon, with the crack athletes of England, at the English amateur championship meeting. This meeting is the principal athletic event in England, and is held under the auspices of the Amateur Athletic Association of Great Britain. The Attorney-general, Sir Richard Webster, is president of the association, and the committee on arrangements is made up of prominent members of the leading athletic clubs of England. Cary, "the record bunter," who was beaten at Huddersfield, on Saturday last, attributes bis failure to win the final heat in the 120-yard handicap to the rough grass track, while Mortimer Remington, who came in third in the 220vard stretch race, which was won by Cary, was not in good enough trim for the contest. The American team starts for Paris on Monday next, where, on July 4, they compete with the French athletes in the games of the racing club in the Bois de Boulogne. On July 18 the Manhattans sail for home on the steamship Servia.

Shortly before noon to-day the rain began to fall, and continued so doing till 8 P. M., the hour fixed for closing the list of entries here. The "best on record" Americans were the great attraction to the Englishmen, who, in spite of the unfavorable weather, gathered on the grounds in strong force so that when the first event was called there was a large attendance at the games, which fact seemed to cheer up those whose spirits had been dampened by the drizzles. The first events of the day were the trial heats for the one hundred-yard championship challenge cup. valued at 60 guineas. Luther Cary, of the Man-battans, won his heat easily in 10 4/5 seconds. There were six heats to this flat race and twenty-one starters. The final heat and race was easily won by Cary, who beat the second man four yards. Time, 10 1/5 seconds. The first heat was won by Mortimer Remington, of the Manhattans, by half a yard in 1025 seconds. There were four starters in this heat. The heat won by Cary was the second, in which there were two starters. Cary led by six yards at the finish. In the fourth heat Stevenson beat the Scotch champion, Green, by two feet in 10 8,5 seconds. The other heats were closely contested by the

English athletes. The half-mile flat race for a cup valued at 45 guineas was won by Holmes, an Englishman, in two minutes and four-fifths of a second. J. S. Rody, of the Manhattans, was fifth. A. B. George, of the Man-battans, retired when he had covered threefourths of the distance, and H. L. Dadmun, of the Manhattans, was last. Thirteen the result the result in the quarter-of-a-mile run, trial heats, politics.

Mortimer Remington, of the Manhattans, won the first heat by two yards, in forty-five seconds, after a hard struggle. The second heat was won by Shuter, an Englishman. There was a dead heat for second place between J. S. Rody, of the Manhattans, and Basan, of London. Morton, of England, easily won the four-mula run by sixty yards in 28 minutes 5 3% mile run by sixty yards in 28 minutes, 5 3/5 seconds. W. T. Young, of the Manhattans, retired from the race after covering a mile

Oxford Would Like to Meet Harvard. LONDON, June 27 .- The boat club of Oxford University recently received a challenge from the crew of Yale College to row s race on the Thames in the latter part of August or early part of September. The Oxford crew was about to answer accepting the challenge, when the news of the defeat of Yale by Harvard in the race of June 26 was cabled to London. A special meeting of the Cxford Club was thereupon called for to-day at which it was resolved not to accept Yale's challenge owing to the fact that she had been beaten by Harvard. It was resolved, however, to row against Harvard if a match could be arranged for the latter part of August.

Troublesome Indians to Be Arrested. HOLBROOK, A. T., June 27 .- Col. H. C. Corbin, assistant adjutant-general of the military department, left here this morning for Kearn's canyon with two troops of the Tenth Cavalry, under command of Major McClellan. At Kearn's Canyon the force will be joined by two companies from Fort Wingate, also two more companies of artillery. Colonel Corbin is acting under the immediate orders of General McCook, and will go directly to the seat of the disturbance. It is stated by Lieutenant Britt that seventy of the hostiles or more are in the Oribie village of stone buildings, situated on an elevation some thirty miles from Kearn's Canyon, and are very defiant. It is said to be Colonel Corbin's purpose to ar-rest the ring-leaders and medicine men and remove them from their tribes for a time at least. This he hopes to do without serious trouble. The country is very dry, there having been little or no rain in the country since March, so that the movement of troops is made a more difficult problem. The recent reports of fighting are without

foundation.

URGED ON BY THE EMPEROR Kaiser Wilhelm Anxious to Have the

Proposed Customs Union Perfected.

His Ministers Instructed to Hurry Negotiations-Fear of Riots in Germany Owing to the High Price of Provisions.

[Copyright, 1891, by the New York Associated Press. BERLIN, June 27.-The ministerial council which Emperor William held preliminary to his departure on his coming foreign tour disposed temporarily of several questions relating to the home and foreign policies of the government. The Ministers have received instructions to accelerate the negotiations for the formation of a central European customs union; to leave the proposed commercial entente with Russia in suspense; to treat the anti-grain law agitation as non-existent, unless food riots occur, and to issue a lottery amounting to 8,000,000 marks to assist in furthering the enterprise of Major Wissmann in East Africa. Some proposals looking to the amelioration of the condition of the poor of East Prussia were also discussed at the conneil. Touching the new zollverein the Swiss papers with French leanings erroneously state that the government at Berne has had its hands tied by the new tariff adopted by vote of the federal assembly. The negotiations which have thus far been concluded have disposed of this objection, each country's tariff being subject to rearrangement by the coming conference of the countries interested in the Dreibund. The zollverein, it seems likely, will expedite a customs agreement with Belgium and Holland, in which Luxembourg will share. Communications proceeding from Brussels and The Hague

tend in that direction. Regarding the grain laws agitation the assumed indifference of the Ministers does not lessen the public ferment, and symptoms of a popular outbreak in consequence of the high price of provisions have manifested to his themselves at several places. Within a until! short distance of the imperial palace at each. Potsdam, four hundred women who were engaged in marketing, becoming enraged at the price demanded for potatoes, asthe dealers and wrecked the market. The Tageblatt, in its issue to-night, of to-night, reports that Herr Miguel, Imperial Minister of Finance, in the course of a conversation with a member of the Reichstag, stated that only the present critical stage of the negotiations of commercial treaties prevented the government from repealing the grain laws.

THE FRANCO-RUSSIAN ALLIANCE. The British papers to-day comment upon the statement recently made by M. Flourens, ex-Minister of Foreign Affairs of France, during the course of an interview. in which the ex-Minister admitted the existence of a Franco-Russian alliance. M. Flourens declares that while held the office of Minister of Foreign Affairs diplomatic notes equivalent to a treaty were exchanged between his government and Russia, and that these notes arranged for common action by the two countries. M. Flourens, who has just returned from Moscow, where he met the Czar, adds that the formation of this alliance is the work of the Czar himself. These statements, appearing simultaneousy with the Bismarckian articles in the lamburger Nachrichten enlarging upon the danger of a too close friendship with England as offensive to Russia, have evoked indignant replies from the semi-official press, in which the Salisbury government s openly spoken of as an ally to the Dreibund. This allusion represents the offi cial behef that within a recent period Lord Salisbury has become a party to a secret convention, committing his government, so long as it remains in power, to concerted action with the Dreibund.

The Foreign Office attaches considerable importance to the coming visit of the young King of Servia to the Czar, and the arrangements are made to give the visit a distinct political significance. The King will leave Belgrade July 27. He will be accompanied by M. Paschies, the Servian Prime Minister, Crown Regent Restitch and several court dignitaries. The Czar will receive his royal visitors at Moscow. The friendship of Servia for Russia will not hinder the Handelsgesellshaft from lending the government 8,000,000 marks for

OPPOSED TO A FRENCH POPE. The references made to the letters from kome regarding the candidature of Cardinal Lavigerie to the Holy See have aroused the antagonism of the Germans to the idea of a French Pope. The Kriez Zeitung holds that it is probable that the successor to Leo XIII will be drawn from the Italian cardinalate, and that if the next Pope be not an Italian then the choice of the conclave will be Cardinal Gibbons, of the Archdiocese of Baltimore, Md., against whom neither national jealousies nor internal cierical differences can operate. The North German Gazette states that Crown Prince Friedrich Wilhelm and other ns of Lin the new palace until July 5, when they will follow Empress Augusta Victoria to the lale of Wight, where they will remain several weeks. Every leading court of-ficial will attend the Emperor during his stay in London, in accordance with his Majesty's expressed desire.
Lord Sallisbury has instructed Sir E. B. Malet, the British embassador to Germany to attend the Emperor during his official receptions in England. The press follows with interest the preparations being made in England for the Emperor's reception, and are pleased with the prospect that his Majesty's love for state and pageantry will

be fully gratified. Herren Bebel, Liebknecht and Singer will represent the German Socialists at the international congress of that party in Brussels, which is to open on the 18th of August, and where it is expected there will be present 250 delegates from Europe and America. Aside from the usual socialistic questions the congress will have a distinctive character, as attempting to arrange for close co-operation between workingmen's unions and dealing with matters heretofore foreign to discussion by their organiza-

POLICEMEN MISTAKEN FOR BURGLARS

Desperate Fight Between Members of a Family and Officers-Cutlass and Pistols Used.

SAN FRANCISCO, June 27 .- Police Officer Knott attempted to arrest Thomas Golding. jr., an employe of the hydrograph office, at the house of his parents in this city late last night on a charge of horse-stealing. Golding, sr., who is an old Pacific Mail steamship captain, repelled the officer with a cutlass and when the latter was reinforced by Officers Brown, Gould and Magee, Golding was assisted by his wife and son. A number of shots were fired and when Golding was finally arrested and taken to jail it was found that Golding, sr. had a bullet wound in his back that will probably prove fatal. Officer Brown was shot in the right thigh. Officer Magee had his right cheek split open by a blow from the cut lass. Golding, jr., had several scalp wounds, and officer Knott had a wound across the forehead made by a bullet. The Golding family claim the shots were all fired by the policemen after having been thrown from the porch, and the Goldings claim to have mistaken the police for burglars. This was also the view taken by a citizen named B. Camm, who attempted to arrest one of the policemen and was knocked senseless. The warrant for young Golding's arrest grew out of a horse trade, he refusing to return a horse for which he gave a watch in trade. Mr. Golding and his son appeared in court this morning to answer to a charge of assault to murder, prepared by officer Knott. Golding, sr., was unable to appear, owing to his wounds, and the case was continued until Friday next, with bail fixed at \$1,500

THE ALTON'S RATES MET.

Chairman Finley Authorizes Western Lines to Lower Passenger Fares.

CHICAGO, June 27 .- A meeting of the general passenger agents of the Western roads was held to-day at Chairman Finley's office to consider the action of the Chicago & Alton in reducing rates between Chicago and Kansas City and between Chicago and St. Louis. The discussion was brief. there being but one thing for the chairman to do. He anthorized all the interested lines to meet the Alton's rates locally between the points named, taking effect next Tuesday, and also to use a 10-cent rate between Chicago and Omaha for basing purposes on through business to and from points west of the Missouri river. On traffic the present rates to Omaha and Sioux City will be maintained. It is understood that this action is entirely satisfactory to the Alton. and that no further reductions wil be made by that road without good cause. There is a feeling among railroad men that the passenger rate be tween Chicago and Kansas City will never again be advanced above the \$10 mark. The Atchison road has been in favor of such a rate for a long time, but the Burlington and the Rock Island, which have a valuable local business to protect, have always opposed it. Now that the rate has been forced into effect, as a result of the difference between Chairman Finley and the Alton, it is doubtful if it can ever be put back to the \$12.50 basis. There is dauger of a further reduction in the rate from St. Louis to Chicago. The

Alton reserved the right to reduce this rate to \$5, but now the Jacksonville South eastern is clamoring for it, and only needs the consent of its Chicago connection, the Atchison road, to put it into effect. The Atchison has not decided whether to join its ally in reducing the rate or not.

Rates on Coal Becoming Shaky. CHICAGO, June 27 .- The committee or

coal of the Western Freight Association, in a report to Chairman Midgley, recommilitary purposes. The loan is taken at mends that such lines in the association as 7412 per cent. and will bear interest at 4 per desire to do so may join the Roll. desire to do so may join the Baitimore & Ohio in through rates on gas-coal at \$2.50 per net ton from Pittsburg to the Mississippi river on business destined to points beyound, allowing the Baltimore & Ohio a minimum of \$2 per ton east of Chicago. The Iowa Central was the only member of the committee that refused to vote the adjustment, its position being that it could not consent to it unless satisfactory arrangements were - made with Eastern lines via Peoria on this business. As it was on account of the Peoria situation that the adjustment by way o Chicago was proposed, the attitude of the Iowa Central is regarded as unreasonable. Mr. Midgley decides that the lines west of Chicago should receive 28 per cent., or 70 cents per net shipment of gas coal, as that is the basis of the existing arrangement with the Eastern lines. As the matter is to be appealed to the commissioners of the Western Traffic Association, Mr. Midgley advises the Western roads to accept no in the meantime than their regular percentage of the gross rate from Pittsburg to East St. Lonis. In the matter of hard-coal shipments from the Eastern mines to Western points, the chairman authorizes the lows Central to make a rate from Peoria 45 cents less than the tariff from Chicago to points west of the Mississippi river, taking effect July 1.

> BIG AND LITTLE DOGS. A St. Bernard That Lets a Little Pocket-Edition Black and Tan Do the Bossing. Nashville American

There are several of the finest specimens of the St. Bernard dog in America in this city. They have become great favorites among the dog fanciers, and, indeed, possess traits in some respects almost human. A reporter was walking along on Boscobel street the other day and observed one of the most perfect specimens of these dogs at play with a child. He ran playfully up to the child and, putting his great paws on her meal. shoulder, threw her down. The child cried Ave and the dog at once showed signs of sorrow, recognizing that his lack of judgment had caused him to make a mistake. He ran around to the little girl, and planting his great big head against her little flaxen pate began to examine to see what harm be had done. He wagged his tail and jumped with delight when the little girl got up, dried her tears and trotted on home. The dog was the property of Henry Morrow. He we she about 125 pounds and looks a little gaunt and angular because he is not yet grown and has not taken on the flesh and muscle that come with maturity. Mr. Morrow is very foud of his big dog, and well he may be, for he shows aristocracy and ancient lineage in every line of his countenance. One can well imagine that his ancestors made it a business to save the lives of lost travelers in the Alps. and that they have transmitted their poble traits of character to their descendant. Mr. Morrow said that the dog had no idea of hurting the child, but that he was young

and played rough sometimes.
"Nothing would induce him," said the speaker, "to bite a child. The children all over the neighborhood play with him, pull his tail and ears and put their fingers in his eyes and mouth, but he never offers to bite them. He will let another dog bite him and treat him outrageously, and will try in a dignified way to get rid of his tor-mentor, but when he thinks things have gone far enough the other dog gets hurt."
Mr. Morrow also owns a little black-andtan bitch not much larger than a mau's fist, and this little brute fairly rules her big companion with an iron rod. She will bite him spitefully and bark and growl at him, but he takes it all in good part and never allows his temper to become in the least ruffled. The little canine makes him get up and lie down and bosses him around generally without the least regard to his inclinations or feeling, but he obeye submis-

A NOTED SCULPTOR'S WORK

Figures That Will Form Part of Philadelphia's Washington Monument.

America Awakening Her Sons" as Created by Prof. Siemering-England's Preparations to Entertain the German Emperor.

AMERICA AWAKENING HER SONS." Magnificent Work of Art That Is to Adorn Philadelphia's Washington Monument,

BERLIN, June 27 .- Among the sculptures which attract particular attention at the Berlin art exhibition is a colossal bronze group "America awakening her sone to fight for liberty." Columbia, seated in the center, places her hands upon the heads of a farmer and a hunter. The latter, already alert, grasps his rifle and seems to scan the horizon for the approaching foe; the husbandman is slowly awakening. The group ir, full of life and action. Seen by itself it appears colossal, and yet it is only a part of the great Washington monument which will be erected next year in Fairmount Park, Philadelphia. Ten years ago the Pennsylvania branch of the Order of Cin-cinnatus gave Prof. Rudoff Siemering, of Berlin, an order for this work. Ever since the master has been at the task, and now the work is nearing completion. The large-size model of the monument may be seen at Professor Siemering's study. The main steps, of Swedish granite, representing the thirteen original States, lead to the base of the monument. At the top of the steps the figures of elks, buffalo, wild horses and other animals indigenous to America, are placed in a reclining position. Fountains representing the four principal American rivers spring from the four corners of the base into mighty granite basins. Figures of Indians and hunters surmount these fountains. From this base rises a pedestal some thirty feet high, bearing on both sides in bas relief bronze plates representing scenes from the revolution. In front is a group representing victorious America grasping in one hand the trident and in the other the horn of plenty, while continental soldiers on either side hold up laurel wreaths. The rear is occupied by "America awakening her sons" as described above. Above all towers a bronze equestrian statue of Washington, fully seventeen feet high. Washington in cocked hat and army cloak, sits in the saddle with a firm and commanding air, his eyes glancing straight ahead as into a glorious future. The whole presents a very fine

Professor Siemering will receive \$125,000 for his part of the work. The castings are made at the foundries of Gladenbeck & Lauchhemmer. They are mostly completed, some parts, as also the statue of Washington himself, have already been shipped to America, and Professor Siemering will complete the few models yet necessary for casting. Professor Stemering is one of the best-known sculptors in Germany. Modest and quiet in his demeanor, he does not care to say much about his work; but the ten years of tireless energy and skill which he has put into it are well rewarded by the satisfaction he feels as his task nears completion.

A ROYAL PROGRAMME. How the German Emperor and Empres Will Be Entertained in England. LONDON, June 27.-Arrangements for the reception and entertainment of the German Emperor and Empress are now nearly completed. Attended by General Von Hahnke, General Von Wittich, Baron Lucanus, Count Eulenberg, Baron Von Marshall and Countess Brockdorff, they will arrive in the Thames on board the imperial yacht Hohenzollern on Saturday, July 4, and will be met by some members of the royal family. They will at once be escorted to Windsor, where several apartments have been prepared for them in the castle. The Queen has deputed Major-generals Sir John Mac-Neill and Sir Henry Ewart and Colonel the Hon: W. C. Harrington to attend them during their stay in England. On the following Monday the Queen, the Kaiser, the Empress and the Prince and Princess of

Wales, Prince and Princess Christian and other members of the royal family and the Duke and Duchess of Anhalt will attend the marriage of Prince Aribert and Princess Louise, of Schleswig-Holstein, which takes place at St. George's chapel, and in the evening there will be a dinner party in the palace. On Wednesday, July 8, the royal visitors will attend Prince Christian's garden party at Cumberland Lodge, thence proceeding to London for the "command" performance at the royal Italian opera. Mr. Harris intends this to be a unique spectacle, surpassing anything before seen at Covent

Garden. The central boxes in the grand tier will be thrown into one, the salon converted into an ante-chamber, and the staircases and corridors lined with yeomen of the guard and soldiers. The whole house will be one mass of flowers, with ice-blocks to enhance the effect. The subscription list will be suspended, and the best boxes will cost 20 guineas, stalls 6 guineas and other seats in proportion. Harris proposes should the Queen and the Prince of Wales approve, to invest the programme with a symbolical character appropriate to the event. Thus the opening piece is most likely to be the first act of "Lohengrin," which includes a welcome to the German King on a visit to foreign shores, while the concluding selection will probably be the last act of "Die Meistersinger," typifying the crowning and glorification of German art. Tickets, despite the high prices, are already at a premium.

On Thursday, the 9th, their imperial majesties will hear the "Golden Legend" at the Albert Hall, as already announced. The 10th will be devoted to the visit to the Guild Hall. The Queen will not accompany her guests on this occasion, her desire be-ing that the reception shall be entirely in honor of their imperial majesties. The Prince and Princess of Wales will, however, probably be present. On Saturday morning, the 11th, a great military dis-play, either at Aldershot or Wimbledon, is projected, at which, beside regular troops, a large force of volunteers will be assembled. In the afternoon their majesties will visit the Crystal palace and inspect the volunteer fire brigade of the United Kingdom. There will be given subsequently a concert by a contingent of the Handel festival choir, and to conclude the festivities a specially prepared exhibition of the famed palace fire-works.
